THE RIVER.

BY S. P. SANBORN.

I'm sitting to-night, in the mild moonlight,
By Yuba's gurgling stream;
And a voice from the tide keeps me here by its side,
As if bound by a witching dream.

Though the water is thick with the drifting sand,
And its tone is murmuring and sad,
It chants a strange song as it eddies along,
That makes me thankful and glad.

For it tells how pure from its crystal ewer
It crept from the mountain's brink,
As its mother prest from her snowy breast,
The drops that gave it strength.

And it caught the dew which the night winds strew,
On wild flower's feathery leaves,
And laughed at the din when the rain fell in
From the rainbow's dripping eaves.

But Gold was spread in its pebbly bed,
And the miner claimed the spoil;
He dug the deep seam and filled the bright stream
With the dross and waste of his toil.

It still whirls on, and the current strong
Keeps sifting the dark sand up,
And the bright gold falls from the slippery walls
Of the whirlpool's dimpling cup.

But the tide comes free from the great calm sea,
With the light of its phosphor waves,
Till the stream grows clear, as the sands disappear
Down to their coral graves.

Then the river is lost where the billows are tost
On ocean's heaving breast,
Or nestles to sleep in the lap of the deep
When the waves are sinking to rest.

Perhaps in the stream of my life's pleasant dream
The Great Miner is seeking a gem;
For it fills with the years with darkness and tears
And never grows peaceful again.

But soon I shall glide to the glassy tide
That circles the throne about,
And leave on the strand the gold and the sand
At the portal where I go out.

Then come, peaceful wave, be my home and my grave,
Let my spirit mingle with thee;
And calm be my rest in the rocking crest
Of the billows that cradle the sea.

CONGRESS AND CALVINISM.—The Springfield Republican, in pointing out the absurdity of Congress in demanding that the Southern States shall act as States in ratifying the proposed amendments, while for other purposes it does not admit that they are States; in the same breath refusing to guarantee them representation if they ratify, and threatening them with harsher measures if they do not—says it is reminded of the old theological complication:

"You shall and you sha'nt,
You can and you can't,
You will and you won't,
And you're damned if you don't."

SOMETHING WORTH KNOWING.—Mr. Mercer, of Lisbon, Howard county, Maryland, states that by planting onions around trees he has discovered that no insects of any kind will trouble the trees. The onion will remain there for many years.—[Ex.

Able Letter from a Republican Farmer on the Chinese Question.

The following sensible letter is from the Woodbridge Messenger:

HAWK'S CORNER, March 3d, 1867.

ED. MESSENGER:—I am glad to say I occasionally get a copy of your paper, and am happy to inform you that some of the articles in the Messenger, on the subject of 'taxation and cheap labor,' have set the people hereabouts to thinking on the more practical concerns of life. There are many things that look beautiful in theory or print, which, when reduced to practice, turn out like the Yankee fish-bone machine, which threw the flesh and bones in opposite directions from that desired by the inventor. Among the theories alluded to, may be mentioned the all absorbing question of the day, the equality of the races of men. "There should be no distinction on account of race or color," is now the order of the day. How do we like it, when applied to Chinamen? I can say for one, that I don't like it muchly. I know that your paper is not a political sheet, and so I feel a little delicacy in expressing any views on those questions that necessarily involve political issues; but the situation of our State makes this question of the equality of the races of local issue. While I am a Republican of several years standing, yet I cannot endorse some of the theories that have recently crept into the party, and while I do not endorse the doctrine that this is a Government exclusively for white men, yet I think that white men are the oldest settlers, and they have a valid pre-emption right to the Government, and I do not like to see it jumped by the "moon eyed Celestials." It may be true that Chinese labor is profitable to a few railroad monopolies and perhaps a few other large capitalists, while their presence and labor is a curse to all common farmers, mechanics, retail merchants professional men, and day laborers, and especially to poor women.

Railroad monopolies have already made their contracts with certain Chinese firms in San Francisco, to have ten or fifteen thousand Chinese slaves shipped in here to work on the grand Pacific Railroad, that was going to bless us all, and has already blessed the people of San Joaquin county with $150,000 taxation. Now taking into consideration the multitude of Chinese already in our midst, then add to the number the fifteen thousand to be shipped here by the Railroad companies and the hundreds that are arriving by every vessel that comes from a Chinese port, and what kind of society will we have? What chance will a common farmer have in competing with his own labor against the rice-eating hordes, who can afford to work for four bits per day, and send their earnings in gold out of the country to the Celestial Empire, to make spoons for their "Josh?" At the present time, one can hardly turn a corner in one of our large cities, without having a Celestial waterfall flapped in his face, after which he can wipe his eyes, pick up a Sacramento Union, and learn that it is disloyal to oppose the Civil Rights Bill or the Constitutional Amendment, and that Chinese labor is essential to the development of the great resources of our new State.

It is a notorious fact that almost every leading journal in the Union, or Republican party in this State, is nothing more than a mouth-piece of some particular monied interest, while the great mass of the people are occasionally noticed as a kind of sugar coating to a very bitter pill. Now let us see how the account stands, and we will find it to be as follows: Our mines are to be sold by Government so as to give a poor man a good title to his "feet"—the Railroads have got the odd sections—the land grabbers have monopolized all the best swamp and overflowed high land, and Congress has endorsed the swindle under the head of "A Bill to quiet land titles." Chinamen are swarming into the country, creeping and crawling worse than the lice in Egypt.—Times are hard, taxes from $3,37 to $6,00 on the hundred dollars worth of property; it costs $75,00 to take the benefit of the Insolvent Act, and there is no road on which you can go to Stockton, and the country is getting deeper in debt every year, and laboring men are going hungry for want of employment.

I understood during the war that the word "loyalty" meant adherence in good faith to the cause of the Federal Government in its efforts to put down rebellion; but at the present time when I hear a man speak of loyalty, I wish to know what he means, and however loyal or disloyal it may be, under the present acceptation of the word, I am willing and anxious to throw aside all abstract political theories and unite with all good men to whatever party they may have formerly belonged, to remedy the evils herein mentioned. Gentlemen, I believe such a move to be the only hope of our temporal salvation, because our devotion to our country has been for the last three years coined and treasured up by swindling politicians; and if the poor men do not combine their strength, discipline their forces, and contend for their rights in the next political campaign in this State, they deserve to be made the equals of the Celestial slaves by whom they are surrounded.

Yours, as ever. A FARMER.

WRONG.—The Quincy Union, speaking of the preposition to improve the wagon road between Oroville and Quincy, thinks it is a movement in the right direction at last, and says: "The citizens of Oroville have taxed themselves heavily and expended a large amount of money to make the Dogtown road *the* road from Oroville to Indian Valley. We have no fault to find with them on that account, in fact, we admit their liberality and enterprise on the subject of roads but opposition to Chico was the cause of it all." Our neighbor is in error, and will not object, we presume to being placed right by the mention of a few facts. In the first place, the road to Quincy is nearly all toll road from Bidwell Bar, and should have been kept in good repair without public appropriation. It was only last year that the Union stated the tolls for round trip of a team over it at $18. It seems to us that amount of toll ought to secure a road for that distance. Then, again the people of Oroville were the first in California to send a stage coach drawn by four animals, over the mountains, merely to demonstrate that this was a practicable route. That was ten years ago, and they have felt some pride in improving the route since, not so much for the purpose of reaching this or that town, as for the purpose of establishing a practical route through the mountains. The discovery of gold in Idaho and Montana, gave greater importance to the route and the people of Oroville have endeavored to make it a road that would attract the trade and travel of these territories, and accommodate such other places as it might. They began it long before Chico was thought of as a town, and have prosecuted it to the extent of their means. If any opposition has arisen in this connection, it is not the offspring of the citizens of Orovillle. They have acted steadily upon a single proposition for the past ten years, and have built a railroad to aid in bringing the route into general use. Within the past few years, however, Chico became a place of some importance, and as Bidwell had opposed the railroad and the efforts of Oroville to open the route through the mountains, he conceived the insane idea of building a road from Chico to intersect the road from Oroville, and turn the trade down the Sacramento river, instead of permitting it to pass over the Oroville railroad, and thus hasten the extension of the railroad up the valley. He desired the railroad to be extended from Oroville to Chico, of course, but seemed unwilling to permit the trade to pass over it until it had reached that point. His position in Congress, and the false maps of the Chico route that were put forth, enabled him to deceive the Postal Department, and turn the forty or fifty miles of road he had made to intersect the Oroville road, into the great Chico and Idaho route, with a tri-weekly mail line terminating at Chico. Of course the people of Oroville were disgusted with such littleness, and foreseeing the inevitable failure of the route, as their selfish representative had put it up, continued their effort in making it a good road, in the hope that the littleness and selfishness of General Bidwell might not prevent at least a portion of the trade and travel of Idaho from passing over this route. If there has been an effort to make any road *the* road to Indian Valley, it is on the part of the citizens of Chico, and not of the citizens of Oroville. We do not, however object to that, but only to the putting up of the through route in such a manner as to destroy it. The citizens of Oroville are sufficiently public spirited, to appreciate the benefit of roads and aid in their construction, and will always endeavor to do their share, confident in the belief that selfishness will not always be enabled to render useless improvments designed for public benefit.—[Butte Record.

NATIONAL PROPOSITIONS.—The Chimney Corner, that very interesting periodical of Frank Leslie's, has the followng in its funny column, on "characteristic popping:"

Yankee—Jonathan—"Sal, do you love doughnuts?"

Sal—"Yes Jonathan; why?"

Jonathan—"Oh, nothing; only jus' consider me one of them doughnuts."

Western: Loquacious Individual—"Hollo, old gal—see here! I've scaterlostercated all over the equinimity of this 'ere country looking for just such a critter as you. What say—will yer hitch?"

Western Gal—"Oh, shucks—I calkerlate; so let's git up and git."

Dutch: Hans—"Ich will haben you, Johann. I loves you more better than I does mein lager bier."

Johannas—"Oh, yah, Hans, dat ist good."

French: French Gallant—"Oh, Mademoiselle till you do me ze very mooch honnaire to accept ze hand?"

Mademoiselle—"Oh, Monsieur, you make mon face very moooch rouge. Ask Madam Voulez-vous?"

Jew: Hamman—"Matilda, I have five gold watches, almost as good as new—von good lot of second hand clothing, and von good camel hair shawl, which I will give to you if you will be mine bride."

Matilda—"Dear Hamman, I can't resist; but let me see the camel hair shawl first."

Irish: Patrick—"Biddy, darling, would yees like a new house, a cow, a pig, and meself in the bargain?"

Bridgut—"Och, Paddy, don't be tasing me. 'Tis the Praste we're after wanting."

CORRESPONDENCE.

Our friends everywhere, who may at any time have knowledge of facts of local importance—incidents, accidents, mining news, doings of public meetings, improvements, enterprises, etc., would confer a favor upon us and our readers generally by sending notice of the same to this office. Give us facts in any shape, and we will take care of them.

WHAT IT MEANS.—A very common exclamation in the Treasurer's office, these days, by hard working men, upon hearing the amount of their taxes is, "What does it mean?"

We can tell our hard-working friends, who have been voting the Abolition ticket for the past six years, what it means, in a very few sentences.

It means that you have been voting to rob yourselves, for the purpose of enriching as rapacious a set of scoundrels as ever lived.

It means that you have been helping to build up a moneyed aristocracy, who by their money control the legislation of the country for their own interests.

It means that you are paying the taxes of your rich neighbors, who have their thousands invested in bonds.

It means that you have become serfs to the "loyal" of the Abolition party.

It means that you are paying the bill for reducing you to the level of negroes.

It means that a National Debt is a National Curse.

It means that unless you want your sons to lead a life of slavery, you must help to hurl from power the thieves, who, under the guise of loyalists, are making the country a despotism, and its people slaves.

It means that you are unworthy of the name of freemen, if you longer consent to bear the burdens of your bond holding neighbors.

Compare the above with your tax receipts and see if they do not tally.—[Toledo Record.

COUNTRY COURTING.—"Get out, you nasty puppy—let me alone, or I'll tell my ma!" cried Sal Smith to her lover, Jake Jones, who sat about ten feet from her, pulling dirt from the chimney jam.

"I ain't touchin' on you, Sal," responded Jake.

"Well, perhaps you don't mean to, nuther—do you?"

"No, I don't."

"Cause you are too tarnal scary, you long-legged, lantern-jawed, slab-sided, pigeon-toed, gangled-kneed owl; you ain't got a tarnal bit of sense; get along home with you."

"Now, Sal, I love you, and you can't help it; and ef you don't let me stay and court you, my daddy 'll sue yourn for that cow he sold him t'other day. By jingo, he said he'd do it."

"Well, look here, Jake! If you want to court me, you'd better do it as a white man does that thing, and not set off there as th'if I were pizen!"

"How on airth is that?"

"Why, side right up here, and hug and kiss me, as if you really had some of the bone and sinner of a man about you!"

"Well!" said Jake, drawing a long breath, "if I must, I must, for I love you, Sal."

And so Jake commenced siding up to her, like a maple poker going to battle. Laying his arm gently on Sal's shoulder, we heard Sal say:

"That's the way we do it, old hoss; that's acting like a white man ought to."

"Oh, Jerusalem and pancakes!" exclaim'd Jake, "if this ain't better than any apple sarse marm ever made, a darned sight!—Crack-e-e! Buckwheat cakes and 'lasses ain't nowhere 'long side you, Sal. Oh, how I love you!"

Here their lips came together, and the report which followed was like pulling a horse's hoof out of the mire. On the following Sunday they were married.

ON one occasion, during the attack on Fort Donelson, a Southern "Hardshell" exhorter was holding forth in exalted strains, declaring repeatedly that the Lord fought on the side of the South, and that Jehovah was encamped round about the Confederate army, saying that it was impossible for the invading army to conquer them. Just at the close of one of his sentences, a man dashed up to the church door on horseback, and yelled out:—"The Yankees have captured Fort Donelson, and are coming up the river!" "Then, my brethren," observed the startled preacher, "save yourselves, for the Lord has got licked!"

RULES FOR HARD TIMES.—Stop grumbling. Get up two hours earlier in the morning, and begin to do something out of your regular profession. Mind your own business, and with all your might let other people's alone. Live within your means. Sell your horses. Give away or sell your dog. Smoke your cigars through an air stove. Eat with moderation and go to bed early. Talk less of your peculiar gifts and virtues and more of those of your friends and neighbors. Be cheerful. Fulfil your promises. Pay your debts. Be yourself all you would see in others. Be a good man and stop grumbling.

NEWSPAPERS.—According to Langley's Pacific Coast Directory, there are in California 122 newspapers and periodicals, of which 26 are issued daily, 2 tri-weekly, 5 semi-weekly, 88 weekly, 1 tri-monthly, 1 semi-monthly, 8 monthly, and one bi-monthly. Two of them are published in French, two in German, and one each in Spanish, Italian, and Chinese.

POOR.—There is a region in Oxford county, in the State of Maine, which is so poor that a single grasshopper might look over ten acres of it and weep tears of sorrow at not

SATURDAY, MARCH 30, 1867

The Supervisorship.

We learn that the Democracic party will not put forward a candidate for Supervisor in this District. Many of the personal and political friends of Mr. John W. Thompson were in hopes that he would allow his name to be used as a candidate; but not desiring to enter the contest against the Independent Candidate, Mr. Jobe T. Taylor, he declines. Mr. Taylor and Mr. True will, therefore, have the field all to themselves. The former is one of the oldest and most prominent citizens of onr county. He is a man of unimpeachable integrity, and has heretofore made the county a good and faithful Supervisor. We do not endorse Mr. Taylor's politics; but from what we know of the man, we feel confident that, if elected, he cannot be made the tool of any clique or party. In fact, it was the knowledge of this fact alone which prevented the powers that be from endorsing him as their candidate. We hope, therefore, to see all those who desire to place a check upon the reckless and useless expenditure of our public funds, rally to the support of J. T. Taylor. If all who feel an interest in this matter, and condemn the manner in which our affairs have been managed of late by the Supervisors, will but unite upon Mr. Taylor, he can and will be elected by a handsome majority.

Explains It.—In the Chico Courant of the 15th inst., appeared a long letter from Cap. DeHaven, of Susanville, written in reply to our comments upon an extract taken from the Courant, and which was published in our issue of February 2d. In the article alluded to, the editor of the Courant stated that "Cap." had just returned from a trip to the lower cities, and in a conversation with him Cap. said that "General Bidwell has already received the nomination for Governor, and that hardly anybody else is talked of for the nomination." In our comments, we accused Cap. of "blarneying" a little. In his letter he denies the accusation, and says:

"I did speak to the Courant man my convictions of General Bidwell's popularity with the people. In this there was no "blarney upon the tongue" Whilst in the lower counties and cities of the State, I had made it an especial purpose to inquire about his prospects for the nomination by the Union party for Governor, and I do reiterate the assertion, that I found no opposition to his nomination among Union men. Everywhere I went, men of all classes and callings expressed an earnest wish for his nomination, believing that no man in the State was more deserving of such honor, and that not one could be found who would discharge the responsible duties of the high position with more of fidelity, greater good, or a more impartial award of benefit to State and people."

There, "Cap," havn't we done the fair thing with you? We meant no offence in our comments, and when, in giving a list of the names of the gentlemen who would probably be candidates before the Radical State Convention, we placed the name of Cap. DeHaven in the list of candidates for State Treasurer, we were honest about it, for not one of the others who were named in connection with that office have more ability or are better qualified for the position, and if he only knew it, not one of them has any better chances of getting the nomination than DeHaven would have, and we would be pleased to see him announce himself as a *bona-fide* candidate. In the letter published in the Courant, "Cap." gives his views regarding the Democratic party and the situation. He also gives Gen. Bidwell a splendid notice, and closes by saying that "when Governer, he (Bidwell) will be the man of the people, and not the tool of cliques or party." We regret that its length precludes us from publishing the letter in full, we hope however that we have given sufficient to prove to Cap. that he was right in his supposition that difference in political opinions does not "sacrifice personal friendship between us," and that a little pleasantry now and then should be no cause for offense. How is it, Cap.?

The Reason.—Judge Pratt, of Sierra, who announced himself as a candidate for Congress, subject to the decision of the Radical Convention, does not happen to belong to the Bill Parks clique of office-seekers in this State. He is not on their slate, and in fear that he might break into their little party arrangements, the whole pack, led by the Marysville Appeal, are trying to head him off, questioning his Unionism, loyalty, party fealty, &c., and by vituperation and abuse hope to be able to force him from the track, so as to give their favorite a better chance. Such a course may win, but we doubt it.

Semi-Weekly.—On Wednesday, May 1st, the Sacramento Bee will commence the issue of a semi-weekly edition, to be published on Wednesday and Saturday of each week. It will be furnished to subscribers at the low price of $4 00 per annum. The Bee is no drone, but is one of the liveliest, spiciest, most vigorous papers in the State. It is radical, very radical in politics.

The Facts of History.

In a late issue of the Marysville Appeal appeared a lengthy editorial, filled with low abuse of us for our present political opinions, in which we find the following: "The principles of the Union man of 1861 are the principles of the Union party of 1867."—Passing over the personalities which the editor indulges in, but which might justly be hurled at the head of the Breckinridge renegade who penned them, we wish to present a few facts which will prove the falsity of the above extract, and at the same time show our own consistency.

What, then, were the principles of the Union man of 1861? In the Platform of principles adopted at Chicago, in 1860, by the Republican National Convention, the 4th Resolution declares:

"That the maintenance inviolate of the rights of the States, especially the right of each State to order and control its own domestic institutions according to its own judgment exclusively, is essential to that balance of powers on which the perfection and endurance of our political fabric depend."

This is explicit upon the great questions of State and Federal authority under our form of Government.

The 6th Resolution declares:

"That the people justly view with alarm the reckless extravagance which pervades every department of the Federal Government; that a return to rigid economy and accountibility is indispensable to arrest the systematic plunder of the public Treasury by favored partisans; while the recent startling developments of frauds and corruptions at the Federal Metropolis show that an entire change of Administration is imperatively demanded."

This is plain and emphatic as to the wise policy of economy and accountibility in the administration of the Government, and is as easily understood to-day as in 1860.

The 12th Resolution declares:

"That while providing revenue for the support of the General Government by duties upon imports, sound policy requires such an adjustment of these imposts as to encourage the development of the industrial interests of the whole country; and we commend that policy of national exchanges which secures to the working men liberal wages, to agriculture remunerating prices, to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the nation commercial prosperity and independence."

This is a full endorsement of the true policy of raising revenues in our Government, which applies with ten-fold more force to-day than it did then, from the fact that the burdens of Government have increased ten-fold.

These three Resolutions declared the position of the Republican Union men of 1860 upon the leading questions of that day, and fully cover the great issues which now divide our country. Upon them we fought and triumphed in 1860, and upon them we stand and battle to-day. Can the editor of the Appeal say half as much? If report be true, he did not in 1860 endorse these grand political truths, to which the Union or Republican party stand committed, and there is nothing strange in the fact that he should daily repudiate them in 1867. But in 1861, when the mighty clash of arms resounded throughout our land, admonishing Union men everywhere to nerve themselves for the struggle and to rally to the support of the Government, the occasion demanded of us more than a declaration of party principles. Congress, at a critical and most trying hour, met the wants and wishes of the whole people, in the solemn declaration—

"That in this national emergency, Congress, banishing all feeling of mere passion or resentment, will recollect its duty to the whole country; that *this war is not waged on our part in any spirit of* CONQUEST *or* SUBJUGATION, *nor purpose of overthrowing or interfering with* THE RIGHTS *or* ESTABLISHED INSTITUTIONS OF THOSE STATES, *but to defend and maintain* THE SUPREMACY OF THE CONSTITUTION *and to preserve* THE UNION, *with all the dignity, equality and* RIGHTS OF THE SEVERAL STATES UNIMPAIRED; *and as soon as these objects are accomplished, the war ought to cease.*"

Under this declaration of the objects of the war, the people rallied as one man to the support of the Government, and throughout the bloody campaigns that followed, Union men everywhere proclaimed their sole purpose to be to preserve the Constitution, the Union, and the Rights of the States. They saw but one way to attain these grand objects, and that was by suppressing the rebellion; and whether it took one year or five, they hoped to accomplish it by that means. It was the Constitutional Government of our Fathers that was assailed, as we thought, and it was around that we rallied. To that, and to that only, the great mass of Union men clung throughout the struggle; and not until the smoke of battle had risen from the fields of Virginia and North Carolina, in April 1865, and revealed to the people the surrender of all the Confederate forces, was the startling doctrine proclaimed, that the war, instead of preserving had destroyed the Government—that, instead of preventing secession and disunion, our money, our energies, and the blood of hundreds of thousands of brave and noble men had been expended in blotting from the map of the United States ten of the very sovereignties which we had from first to last, in the most solemn manner, sworn to preserve and protect, with all their rights unimpaired. And because we could not, and would not, accept this wild dogma as a part of the political principles of the Union party, we must be hounded down by such dolts and hypocrites as preside over the columns of the Appeal, as a traitor to the principles of said party! Did our space allow, we could show by reference to the Reconstruction bill passed by Congress in 1864, and vetoed by President Lincoln, that President Johnson has followed the plan foreshadowed by the Administration at that time for restoring the States to the Union, on the cessation of hostilities; but we think there is not a candid man of intelligence, in or out of the Union party, who will contend for one moment, in face of the history of the last six years, that the principles of the Union men of 1861 are the principles of the (miscalled) Union party of 1867.

If, to encourage a subversion of the fundamental principles of our Government—to wink at and approve of wholesale plundering of the public Treasury by those in power—to advocate a system of tax-gathering, which tends constantly to make the rich richer and the poor poorer, or, in other words, removes the burdens of Government from capital and imposes them upon labor—to advocate, in fine, all the doctrines and measures proposed by the corrupt, fanatic and revolutionary leaders of the Rump Congress, among which are—negro equality, the overthrow of the Southern State Governments, the disfranchisement of the people and the confiscation of their property, the virtual destruction of the Supreme Court, the Congressional usurpation of all the powers of the Government, and, in fact, an utter disregard of all Constitutional obligations and restraints,—if these are necessary to stamp us as a "Union man," then are we proud to say that we do not deserve that *distinguished* honor.

Pardoned.—John Pelcher, convicted in Butte county of robbery and sentenced to ten years in the State Prison, has been pardoned. John was one of the heroes of Bull Run, from which disastrous field, according to his own account, he ran away, and never stopped until he got back to New York.—As it has become quite common, particularly in this State, to plead a criminal's services in the army in mitigation of his punishment, John's pardon may be satisfactorily accounted for.

Butte County Jockey Club.—A Jockey Club has been formed at Oroville, and the following officers elected: C. F. Lott, President; Fred. Shaffer, Samuel Mullen, S. T. Brewster, Joseph Shearer, and Harmon Bay, Vice Presidents; Geo. H. Crossette, Secretary; James Nelson Treasurer, and Peter Freer and J. M. Clark, Stewards.

The True List.—The following is the list of losses adjusted and *paid* by the Phoenix of Hartford Fire Insurance Co., during the few years it has been doing business in this State. The losses were paid on an average of *seven days* after the fires occurred, and without unnecessary expense or trouble to the insured. As will be seen by reference to the list, the amount paid by losses by fire in Marysville is larger than that of any other city on the const, except San Francisco:

The Sentinel.—Such is the title of a new paper recently started at Red Bluff by Townsend and Lewis. Its typographical appearance is very neat, and reflects credit upon the operatives of the concern. The Editorial department is under the control of Col E. J. Lewis, and it is scarcely necessary to add, therefore, that the paper is Democratic to the core. Col. L. is a forcible writer, and the Sentinel, under his management, will doubtless become a permanent institution and a power in the county of Tehama.

In this connection we will state that the Supervisors of Tehama county, although politically opposed to Messrs. Townsend and Lewis, gave to those gentlemen the county printing, because they offered to do the same for a less amount than the Independent, the Radical organ in the county. In comparison with the honest and honorable course of the Tehama Supervisors on this subject, how utterly contemptible and dishonest appears that of the same officers in this county, a majority of whom refused to receive a bid lower than they were paying, and thus actually taxed the people of the county for the support of their revolutionary political organ.

Beadle's.—The March number of this popular Magazine has been received. Although but a little over a year old, Beadle's Magazine has already attained a greater popularity with the reading public, than many of its class which have been published for years. We learn that a club for Beadle's is being made up in this place.

National Ink.—To the Agents at San Francisco, Messrs. J. J. Knowlson & Co., we are indebted for a large bottle of the National Ink Co.'s School and Counting Room Ink. We have tried it and pronounce it the *best* we have ever used.

Denies It.—Smith, of the Appeal denies that he ever voted the Democratic ticket. In his denial he says:

"If we know ourself, and we think we do, we never cast a Democratic party vote, of any kind, in this or any State."

Enlarged.—The Dramatic Chronicle has been enlarged. We are pleased to learn that the Chronicle is in such a prosperous condition. May it ever be thus.

For summer complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt been more successful in curing the various kinds of Cholera than any other known remedy, or the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, A SURE REMEDY.

LOCAL ITEMS.

PLOUGHING.—Several of the farmers in Indian and American Valleys have commenced ploughing.

ELECTION.—The special Supervisor Election takes place on Tuesday, the 9th of April.

COME AGAIN.—We should be pleased to have our correspondent, "N." write us more frequently. What say you, "N."

ACCIDENT.—One day last week, Mr. A. Blood, of Taylorville, was thrown from a horse while riding in the trail below Blood's saw-mill, and severely bruised.

IMPROVEMENT.—Mr J. F. Hartwell, is building a large flume to carry water from the reservoir to his saw-mill in this valley. It will be completed and the mill in running order again in a few weeks.

HEN FRUIT.—The Appeal says that in Marysville eggs are selling at twenty to twenty five cents per dozen. In American Valley they are scarce at fifty cents per dozen. As the old lady remarked, "we should not suppose that twenty-five cents per dozen, for eggs, would pay for the wear and tear of the hens."

LOCATED.—We understand that the Wagon Road Co. have concluded to locate the Oroville and Beckwourth's Pass Wagon Road on the North Fork route. They have engaged Mr. Keddie to furnish them with a map or plot of the route, and he has gone to San Francisco for that purpose. It is reported that the Company will commence work upon the road this season.

QUINCY AND INDIAN VALLEY ROAD.—A number of gentlemen interested in the completion of the Indian Valley wagon road, held a meeting in our town one day this week, for the purpose of straightening up the affairs of the Company.—Responsible persons stand ready to commence work upon the road immediately, but the affairs of the Company are in such shape that they do not feel warranted in going ahead with the work, at present. The matter will doubtless be arranged in a short time.

COMPLIMENTARY.—Since Maj. Whitlock arrived in Quincy, he has received from the war department a commission as Brevet Major. A mistake was undoubtedly made by the department, in filling out the document, as the Major held a Major's commission before he was discharged. It was doubtless the intention of the department to issue him a Brevet Lieut. *Colonel's* commission, as the officer commanding the department of Arizona and New Mexico, recommended such an appointment some time since. We presume the mistake will be noticed and rectified by the department, but as the Major is out of the service, it will be no advantage to him except as a complimentary acknowledgment of his standing as an officer.

RUNAWAY.—On Thursday morning last, Mr. Edwards hitched up Robinson's colts, to take a drive around the Valley, and at the same time to give the steeds a little exercise. In going through Main street the colts took a notion to go a little faster than "Jim." wanted them to. He undertook to rein them in, and would have succeeded in doing so, had it not been for an unlucky accident, viz: The buggy was old and weak, and could not stand the pressure which "Jim." brought to bear against the dash-board and foot-rail. The whole front of the body gave way, and let him down upon the tongue. Seeing there was no use in attempting to stop them, he jumped out and escaped injury. The colts then had everything their own way, and ran with lightning speed down the lane, as far as Wheeler's ranch, where they stopped, and were caught. The buggy was left a total wreck. The horses were injured but little. "Too many oats," Duncan.

THE COUNTY MAP.—Mr. Keddie, who has just returned from San Francisco, informs us that Professor Whitney will not furnish the map of the county to the Board of Supervisors, at their meeting in May, in accordance with the contract existing, but will do far better for the county. He is now at work upon the map, which, Mr. K. informs us, will be an excellent one, and it will take about two months to complete it. As soon as it is done, Mr. Whitney intends *presenting* a copy to the county, and will not ask or expect to receive any pay for it. When Professor Whitney entered into the agreement, he expected to use the funds he was to receive from the county, to pay his surveyor's for making the survey; but as the geological survey was made at the same time, we presume he has found that the yearly appropriation he receives from the State will meet all the expenses, except for plotting the map. That portion of the work, which is considerable, he intends to perform at his own expense. Such action, to say the least, is very liberal on the part of the Professor, and will be duly appreciated by the tax-payers of the county. The map will not, in all probability, be presented to the Board until its meeting in August.

QUARTZ,—A correspondent sends us the following from Quartz Township:

The Mammoth Quartz Mining Co., on Jamison Creek, owned by Messrs. J. B. McGee & Thompson, who have been at work day and night for the last seven months in running a tunnel to their ledge, struck through last week, after running 1700 feet. They struck upon the ledge at a place that is known as the Eureka Chimney, which is being worked by the Eureka Co. at a higher level. Where the Mammoth struck through it has all the appearance of being as rich as any rock that has ever been found in the hill. The seam of black sulphurets is four feet wide, and free gold can be seen with the naked eye.—Miners who have experience in quartz mining, say that the ore will pay from $60 to $100 per ton. The Company is also running a new tunnel which, when completed, will tap the ledge 300 feet below any former level, and be 2100 feet in length. The Co. let a contract some time ago, to build a double railroad from the tunnel to the Flat below, which will lessen the expense of bringing the quartz to the mill at least $5 per ton. Miners who are out of employment had better give the Mammoth Co. a call, as they intend soon to put on fifty or sixty men. The Eureka, owned by Parrott & Co., of San Francisco, is also taking out some good rock. They have been working sixteen men this winter, and have out some 400 tons, which looks and prospects as well as any taken out in former years by the same Co. Mr. John Christopher thinks that he will be able to start the mills by the 1st of April. The snow is from 18 to 22 feet deep, and it will be rather late in the season before their track from the ledge to the mill will be clear.

INSURANCE.—This branch of business in this State, has perhaps grown faster and assumed a greater magnitude in the last few years than almost any other. It is not long ago that such a thing as an insured building—outside of the limits of San Francisco, especially—was a rarity. Risks were considered very hazardous, and premiums proportionately high; in fact, so high that property holders outside the large cities could not stand the tariff, but this state of affairs has materially changed. At the present time insurance is within the means and reach of all. The PHŒNIX INSURANCE Co. of Hartford, by its judicious system of local agencies in every town of importance in the State, and by establishing a tariff of price commensurate with the risk assured, has conferred a genuine favor upon the people of the interior. In nearly all the other companies applications have to be referred to the agent at San Francisco, and before he can be heard from, your property may be burned. In the Phœnix Co. the risk is either taken or refused immediately. There is no delay; if taken, a policy is issued by the local agent which binds the company as completely as if issued by the agent at San Francisco. There is no branch of business calculated to confer a more lasting benefit on a community than insurance. We know not at what moment the destroying element may sweep from us that which it has taken years of toil to accumulate. This misfortune can be guarded against by simply investing a few dollars in a policy. It is the only safety the poor man has, for no matter how careful you may be, or how secure you may think your property, it is liable at any moment to burn. In selecting a Company in which to insure, care should be taken to select one that from long standing, ample capital and prompt payments, gives assurance that your losses will be paid promptly, in case your property is consumed. The Hartford Insurance Companies have always taken the lead in this respect, and at their head stands THE PHŒNIX. This old and thoroughly tried Company has paid for losses on this coast the enormous sum of $234,000, and yet its business has been remunerative. There is perhaps, no company on this coast under better management than the Phœnix, and Aetna. Mr R. H. Magill, the Manager of these sterling Hartford corporations, has no superior as an underwriter in this State. He has made insurance his speciality, and the immense business these companies are doing attests his ability. To all who may desire to insure, we would say, give the PHŒNIX a trial, for no matter how much you may chance being burned up in the next world, take no chances in this one, when for a small outlay you will be sure of receiving the amount fixed in your policy, in case your property should be consumed. Mr. A. P. Moore is the Agent of the Phœnix in this county, to whom all applications for policies should be made.

LAST OF A GLORIOUS BAND.—A telegram was received yesterday, says the N. Y. Times of Feb. 20th, in Congress announcing the death, at Edinburg, Sarotoga co., N. Y., of Samuel Downing, the last surviving soldier who was actually under arms in the war of the Revolution. Downing's age has been stated at from 100 to 106, but we are not able to determine the precise figure. He enlisted in N. Hampshire near the close of the war, and after peace found his way to New York, in which State he lived for more than half a century. There have been a dozen or more of "last of the pensioners," but we presume that the decease of this well known citizen closes the list, and that there is not now a man living who actually bore arms in our great struggle for liberty. Sixty-seven years have gone by since Washington died, and he was almost the first (not slain in battle) to lead the long array of patriots whose glorious line is finished by the departure of Samuel Downing.

HUMAN SPONTANEOUS COMBUSTION.—An Indianapolis dispatch, of a late date, gives the following marvelous story:

A well authenticated case of spontaneous combustion occurred in Columbus, 40 miles south of this city, yesterday morning. Andrew Noite, a German, very intemperate in his habits, was found dead in his shop, his lips being entirely burned away, leaving a ghastly hole, and his tongue charred to a crisp. His nose was also burned, as if by fire coming from his nostrils, and his clothes were still burning when found. No other part of the body, save the air passages, was burned. Physicians who examined the body pronounce it a clear case of spontaneous combustion. It is supposed that the fire was communicated by attempting to light a cigar.

TOO MUCH ELECTRICITY.—According to Dr. R. Beverly Cole, says the S. F. Dispatch, the great prevalence of heart disease in this city is to be traced to the atmosphere, which, on account of the absence of thunder storms, is surcharged with electricity. It is very well to know this fact, but what good is it to us? We can raise domestic, financial, religious and political storms; but how, in the name of Jove, are we going to raise thunder-storms so as to dis-electrify the atmosphere?

WORDS FITLY SPOKEN.—The S. F. Call, in speaking of the Marysville Appeal, truthfully says:

No one of ordinary intelligence can read the editorials which appear in the Marysville Appeal, just now, without crediting the author with being the most consumate ass in the whole field of journalism.

STATISTICS.—The Commissioner of the General Land Office in Washington estimates the present population of the United States at 36,500,000. The country contains about 2,300,000,000 acres to each person. The surveyed lands amount to 1,465,468,800 ac's.

CHEERFLY.—A cotemporary says "Congress is a caravan of wild beasts." We should say, remarks the N. Y. Day Book, that it was composed chiefly of tigers and monkeys. It is of the subtlety of the monkey, and ferocity of the tiger.

THIEVES AND SWINDLERS.—The N. York Tribune says of the Radical party that "it has been misled into putting thieves and swindlers into power, and these have robbed the nation to its sore discredit and injury." Just so; but is it "misled," very pertinently asks the Colusa Sun, when it makes every exertion to keep them there, under the plea of curtailing Executive power?

FLYING MACHINE.—The proprietors of the Avitor, which is being built at San Francisco, announce that the machine is nearly finished, and the trial trip will be made in a few days.

FLORENCE

Sewing Machines.

THE BEST IN THE WORLD!!

Highest Premium, Fair American Institute.

Highest Premium, State Fair of California, 1866.

It makes four different stitches, the *lock*, *knot*, *double lock*, and *double knot*, on one and the same machine. Each stitch being alike on both sides of the fabric.

Every Machine has the *reversible feed motion*, which enables the operator, by simply turning a thumb-screw, to have the work run either to the right or left, to stay any part of the seam, or fasten the ends of seams without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

The needle is easily adjusted.

Its motions are all *positive*; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it.

It does not require finer thread on the under than on the upper side, and will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of needle, tension, or breaking thread.

The only machine having a self-adjusting shuttle tension—the amount of tension always being in exact proportion to the size of the bobbin.

The hemmer is easily adjusted, and will turn any width of hem desired.

It is almost *noiseless*, and can be used where quiet is necessary.

No OTHER MACHINE will do so great a range of work as the Florence.

DR. CHARLES H. TOZER'S

PRIVATE MEDICAL INSTITUTE.

Northeast Corner Kearney and Jackson streets, San Francisco.

The Great Eradicator of Special Complaints, Formerly of Locke Hospital, London, Eight Years in Sacramento and The Last Four in San Francisco.

DR. TOZER'S experience is of forty years standing, and during that time he has met with unparalled success in the treatment of all those diseases generally known as

Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints, and seek advice in time, thereby saving them a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs, Headache, and an aversion to Genial Society, especially that of Females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two latter countries no doubt have seen the dreadful effects of it on both the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick are of little account, except to dry up the disease on the surface, leaving the poison in the blood. These facts I have learned by experience and think I can say without boasting, that I have seen more practice in these diseases than any other physician in California, dating as it does from 1849.

My Plan is Purely Vegetable,

Destroying the disease and purifying the blood, so that there is no danger of secondary symptoms.

RHEUMATISM, NEURALGIA, and diseases arising from the use of Mercury, Impurities of the Blood, cured in a short time by the use of VEGETABLE MIXTURES, known only to myself.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart Derangement of their Monthly Sickness and all other diseases that the female system is subject to, will find prompt relief by applying at my Institute, San Francisco, corner of Kearney and Jackson streets.

Deseases Peculiar to Females,

Such as Retention, Suppression and Painful Menstruation, etc., have been my study for a great number of years, and I can safely promise a perfect cure in a short time.

Be not deterred from calling on DR. TOZER from delicacy or fear of exposure, as the Doctor is a man in whom you can trust, and all cases are treated with the utmost secrecy.

My Female (Monthly) Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my Office. Price $5 per box, with full directions sent by mail or express.

Consultations Free. All communications strictly confidential, and a cure guaranteed in all cases.

Address, C. H. TOZER, M. D., San Francisco.

A Grateful Acknowledgment to a Skillful Gentleman.

SACRAMENTO CITY, June 1, 1866

Dr. Chas. H. Tozer—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relied me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, that I might have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health and even for my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you, should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for your success, I remain, yours, etc.,

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the Baptiste Society of San Francisco.

DR PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing, or the society of friends, etc. The patient will complain of Dizziness, Vertige, and that Sight and Hearing are weakened, and sleep disturbed by dreams, melancholy, sighing, palpitation, faintings, coughs and slow fever, while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and achings in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. Perrault, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc. will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

Dr. Perrault's diplomas are in his office where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the Doctor with the assuaance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for Dr. Bor's Female Monthly Pills. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. Perrault, corner of Sacramento & Montgomery streets, Rooms 10 and 11, or Box 973, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc. etc.

PRIVATE

MEDICAL AID.

Quick Cures & Moderate Charges.

DR. W. K. DOHERTY'S

Private Medical & Surgical Institute

Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Co's office. Private entrance on Leidesdorff street.

SAN FRANCISCO.

Established expressly to afford the afflicted sound and scientific Medical aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy, and all sexual diseases.

TO THE AFFLICTED.—Dr. W. K. Doherty returns his sincere thanks to his numerous patints for the patronage, and would take this opportunity to remind them that he continues to consult at his institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private Diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse Gonorhoe, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the back and loins, Inflamation of the Bladder and Kidneys, etc., and he hopes that his long experience and successful practice, will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, has references of unquestionable veracity from men of known respectibility and high standing in society.

All parties consulting him by letter or otherwise will receive the best and gentlest treatment and implicit secrecy.

DR. DOHERTY would call attention to the following certificates, from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praises of a Physician, of whom hundreds of like cases can be cited, during a practice of more than fifteen years.

A CASE OF GLEET AND STRICTURE:—

Dr. Doherty—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed. I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with stricture. Being a stranger in this city, and believing those doctors who gave such positive assurances of success were necessarily the best (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money. I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the stricture is all removed, and my general health is better than it has been for years. In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address, and call and see me, (I keep store in this city.)—My experience may save you many dollars. I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorhoe, Gleet, etc., but never derived any benefit from them. I am, Doctor, very truly yours. L—— H——

SEMINAL WEAKNESS.—A sworn to certificate of a most remarkable cure of Spermattorrhoea—A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermaterrhoea." or Seminal weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience in that year, however, I had Seminal weakness to an alarming extent, which was soon followed by the most alarming symptoms, as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind too, was afflicted to such an extent as to seriously impair my memory my ideas were confused and spirits depressed, I was averse to society, had evil forbodings and self-distrust and was entirely unfit for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars but in no instance obtained more than temporary relief, I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement I thought I should call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty, at his office in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th day of December last I placed myself under his care; in one week, I found myself very much improved, and now, after five weeks treatment, I feel myself thoroughly cured of all my troubles, and in the enjoyment of the best of health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself

TO FEMALES.—When a female is in trouble or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility vaginities, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful suffering and premature death. All married ladies whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

TO CORRESPONDENTS.—Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing that all letters are only opened and replied to by himself, and the latter as promptly as possible. If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the cases itself, (including the remedies) will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation—Fazz. Permanent cure guaranteed or no pay. Address,

Opinions of the Press.

MEDICAL INSTITUTE!!

ESTABLISHED BY

DR. J. C. YOUNG, IN 1850.

536 Washington Street,

Below Montgomery,

SAN FRANCISCO.

Consultation by letter or Otherwise, Free.

IT WOULD BE EQUALLY USELESS AND UNNECESSARY to enumerate here the Diseases cured at the Institute. All classes of Complaints are treated; but I consider it my duty to mention those of a special nature, as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive those ignorant of the emptiness of his profession.

First among the special complaints is

SEMINAL WEAKNESS.

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer languish and decay, the true cause of their affliction, is too great an incentive to be forced into obeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell, but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; coldness, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slighest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its great danger; for while the patient is being treated for some supposed affection of the Heart, Lungs, Brain, or Digestive Functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice? Mark the course of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression.

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspiration.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hopes of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepit and degenerate.

AN UNSOLICITED

TESTIMONIAL OF CURE.

Let all who are afflicted with Seminal Weakness read the sworn-to-Certificate, first published without the Doctor's knowledge. A remarkable case.

[Revenue stamp.] This is to certify that I was afflicted with Seminal Weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I first had nervous trembling of the limbs, pains in my back, and trouble in my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the Fits came on At first I only had a momentary loss of mind a disiness. This grew worse, until in a short time, I would remain in a confused state—for some after I had them, in my sleep I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now became as frequent as twice or three times a day, seeing me without warning and prostraling me to the earth, where I would remain for an hour insensible, I lost all recollections of persons and things. I could remember nothing for two minutes, but my great sufferings. I swallowed box after box of *patent remedies*. Nothing did me good. In despair of ever being well I prayed for death. But I was not to die, for help was at hand. My friends visited the *Dr. J. C. Young Institute*, and I was placed under the care of Dr. Benj. F. Josselyn. I very soon experienced a change. I grew better and better. I could go to work. My mind became clear. The Fits grew lighter. I was soon perfectly free from them, and now for over two months, I have not experienced them at all. All the symptoms of seminal weakness are gone, and I feel as well as I ever did. It is to DR. BENJ. F. JOSSELYN, that, under God, I owe my life; and from the gratitude I owe him, I give this, *my testimony* of his skill and success. If this should induce any one unfortunately afflicted with Seminal Weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe. BENJAMIN BROWN. [Seal.]

[Revenue stamp.] Subscribed and sworn to before me this 1st day of December, 1864.

[Notarial seal.] W. O. ANDREWS, Notary Public.

IMPORTANT TO PERSONS

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poisons. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that *Mercury* will not cure *Venereal, but dries it on the surface, to allow it to poison the Blood*, to re-appear in its hideous marks upon the body, and in the throat, mouth and nose: Those who have had any form of Venereal, and were treated with Mercury, were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues to be communicated to the wife or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose sore heads, cankered mouths, diseased limbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. Be warned in time and secure health by applying at the Dr. J. C. Young Institute.

The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. The diet need not be changed. Cure always guarantied or no pay required.

Only purely vegetable remedies used.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community? The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed—consultation by letter, or otherwise free. To Corespondents:

Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen only by the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed. ☞ Consultation free!
